

MEDIUM PINWHEEL TEMPLATE

1. Print template on card stock (or your paper of choice)
2. Fold the paper in half forming a triangle. Open up and fold the opposite way forming a triangle again.
3. Cut on the folded lines half way toward the center.
4. Punch a small hole in the exact center of the square where the folds cross each other.
5. Place a small glue dot on every other point just to hold in place when folding.
6. Place the paper fastener through the points and then through the center. Carefully press the fastener ends into the eraser of the pencil.
